Terms.

Cash with order, or C. O. D. upon receipt of twenty-five per cent. of the amount of the purchase to guarantee transportation charges. Remit by Bank Draft, Post Office or Express Money Order, or Certified Check.

Goods delivered F. O. B. Orange, N. J. No charge for boxing or carting.

Edison Films are sold outright without territorial restrictions. We do not lease or rent films. We do not ship films on approval. We do not deal in second hand films, or take old films in exchange or trade.

All Edison Films are guaranteed to be of superior workmanship, and of the best quality of material.

Special Notice.

Use catalog numbers for mail orders, and code for telegraphic orders. Be careful to spell the code words exactly as printed. Wrong spelling causes confusion and delay in filling orders, and often necessitates telegraphing for further instructions.

Better Facilities.

Mr. Edison's latest discovery has made a complete revolution in our printing and developing departments. We now employ an entirely new process for making animated film subjects. The results surpass anything hitherto produced. The pictures when projected show great improvement both in clearness and definition.

Film Classification.

To counteract the effect of cheap films, duplicates, inferior subjects, and short length films, genuine Edison Films have been listed in two

67

classes. Some subjects cost large sums of money, while others are procured at a nominal cost.

The inexpensive films have been listed as Class B, at the net price of 12 cents per foot, while the more expensive subjects have been listed as Class A, at the net price of 15 cents per foot. The quality of Class B films is precisely the same as Class A, and the highest quality of material and workmanship obtainable is used in the manufacture of each film. The difference between the price of 15 and 12 cents per foot represents solely the difference in the cost of procuring the Original Negatives.

Film Coloring.

Coloring, when properly done, adds wonderfully to the effectiveness of many films, while inferior work only spoils a good plain film. There is as much difference in film coloring as there is between a beautiful water color picture and a cheap chromo.

While the artistic and mechanical skill are absolutely necessary for this work, the composition of the colors themselves is a vital point. A great many colored films, instead of being bright and clear, have a faded or washed out appearance when projected upon the screen.

We have devoted a great deal of time and attention to perfecting our film coloring, and we are now prepared to furnish the highest class of skilled and artistic hand work, in bright, clear and appropriate colors.

The cost of coloring depends entirely upon the subject and the number of scenes to be colored, and is comparable to the original price.

Price quoted upon application.

Mono Tinting.

This is an entirely new process. It is covered by

Mr. Edison for tinting films. It is a chemical process, the colors are fixed and permanent, cannot be washed off, will not fade and will last as long as the film itself. The most beautiful moonlight effects are produced. Marine scenes and waves are given a naturalness almost beyond belief. While the body of the ocean is green or blue the breaking crests of the waves and spray are white, just as they are in nature. The most beautiful effects are produced in woodland and interior scenes. This process, which is an exclusive Edison feature, has been used with great success with the following headline films: "The Night Before Christmas," "The White Caps," "Life of An American Policeman," etc., etc. There is no extra charge for Mono Tinting films.

The usual method employed for tinting films is to put them through a solution of aniline dye. Red, green and blue are the colors mostly used. This is simply a cheap staining process. The colors are not fixed or permanent, can be washed off by water, and fade in a short time under the intense light of the Projecting Kinetoscope.

CAUTION.

Edison Kinetoscopes, Projecting Kinetoscopes and Films are covered by U. S. Patents No. 632,796, March 14, 1893; 586,068, August 31, 1897 (re-issued September 30, 1902); No. 1,250,707 and 1,250,708 and January 12, 1904; No. 1,250,709; No. 688,608 and No. 688,609, December 19, 1901, and No. 714,815, December 2, 1902. The public is warned against purchasing or exhibiting infringing apparatus.

EDISON PROJECTING KINETOSCOPES
Exhibition Model, Improved Take-up
and Film Magazines

Price, \$135.00

Catalogue No. K 15183 Code *Yermados*

Net weight complete, 80 lbs.; without Rheostat 65 lbs.; gross weight, 160 lbs.; Dimensions when set up ready for operation: Length, 4 feet 8 inches; width, 11 inches; height, 16 inches. Dimensions of packing case: 55 x 14 x 22 inches.

Equipment

Hand Power Mechanism in Quartered Oak Cabinet.	Russia Iron Cone and Slide Carrier Frame.
Upper Film Magazine.	Double Slide Carrier.
Lower Film Magazine.	Condensing Lens.
Improved Take-up Attachment.	No. 2 Motion Picture Objective Lens.
Two 2-inch Reels.	No. 2A Stereoscopic Objective Lens with Stereoscopic Attachment.
Base Board with Clamp Casting complete.	Knife Switch and connections from Lamp to Rheostat.
Lamp House complete, with Sliding Base.	Adjustable Rheostat for 65-110 volts alternating current, or 110-120 volts direct current.
Are Lamp complete.	
Eccentric Hubler Post for Calcium Burners.	

Exhibition Mechanism, Improved
Take-up and Film Magazines

Price, \$115.00

**Mr. Edison's System of Copyrighting
Moving Picture Films Sustained
by the Court of Appeals.**

The United States Circuit Court of Appeals at Philadelphia has decided that Mr. Edison's method of copyrighting films is legal, and that such copyright protects him from all infringements of that copyright by means of copying the whole or part of any film.

All Edison Copyrighted Films are sold subject to the restriction that they shall not be used for duplicating or printing other films from them. Any use of them for such purposes is an infringement of the patents under which they are made and sold. Patented August 31, 1897. Reissued September 30, 1902, and January 12, 1904. All infringements of Edison copyrighted films will be prosecuted at once and stopped by injunction.

EDISON MANUFACTURING CO.,
Orange, N. J.
